- Minimal corporate sales and competitive market conditions in this period compared to PCP.
- Segment profit decreased due to higher fixed costs in CY23 despite a higher revenue achieved this year.
- Improved ASP despite competitive market conditions, however overall reduction in Gross Profit % with continuing inflationary pressures and weakening of AUD against USD, adversely impacting costs of production.
- The drop in units sales for this period mainly contributed from Australia sales. The showcase of A100 in AGE 2023 was positive and is expected to lift sales in CY2024. This cabinet almost exclusively contributed to Q4 revenues.
- Increase in unit sales related to Asia with market recovery post pandemic. Change in sales distributor and new venue openings specifically in Philippines is expected to drive revenue in this market in future periods.
- Grand Fortune has continued to operate above house average in both NSW and QLD. Fortune Bull is the strongest game within this brand and is performing above 1.5x house average. Jackpot Kingdom has debuted strongly at above 1.5x house average in QLD.

- The increase in online revenue predominantly resulted from the acceleration of GAN revenue and 1,250,000 GAN shares issued to AGT based on the GAN contract amendment executed on 29th March, 2023. As part of the amendment, GAN's exclusivity will terminate on 31st March 2024. Upon termination of this contract, AGT will directly integrate with USA operators.
- Despite the revenue increase of 28%, the Group during the period invested in more talent to remain competitive in the online industry, resulting in a similar segment profit margin.
