

Corporate Governance Statement as at 30 June 2016

The Company's Approach to Corporate Governance

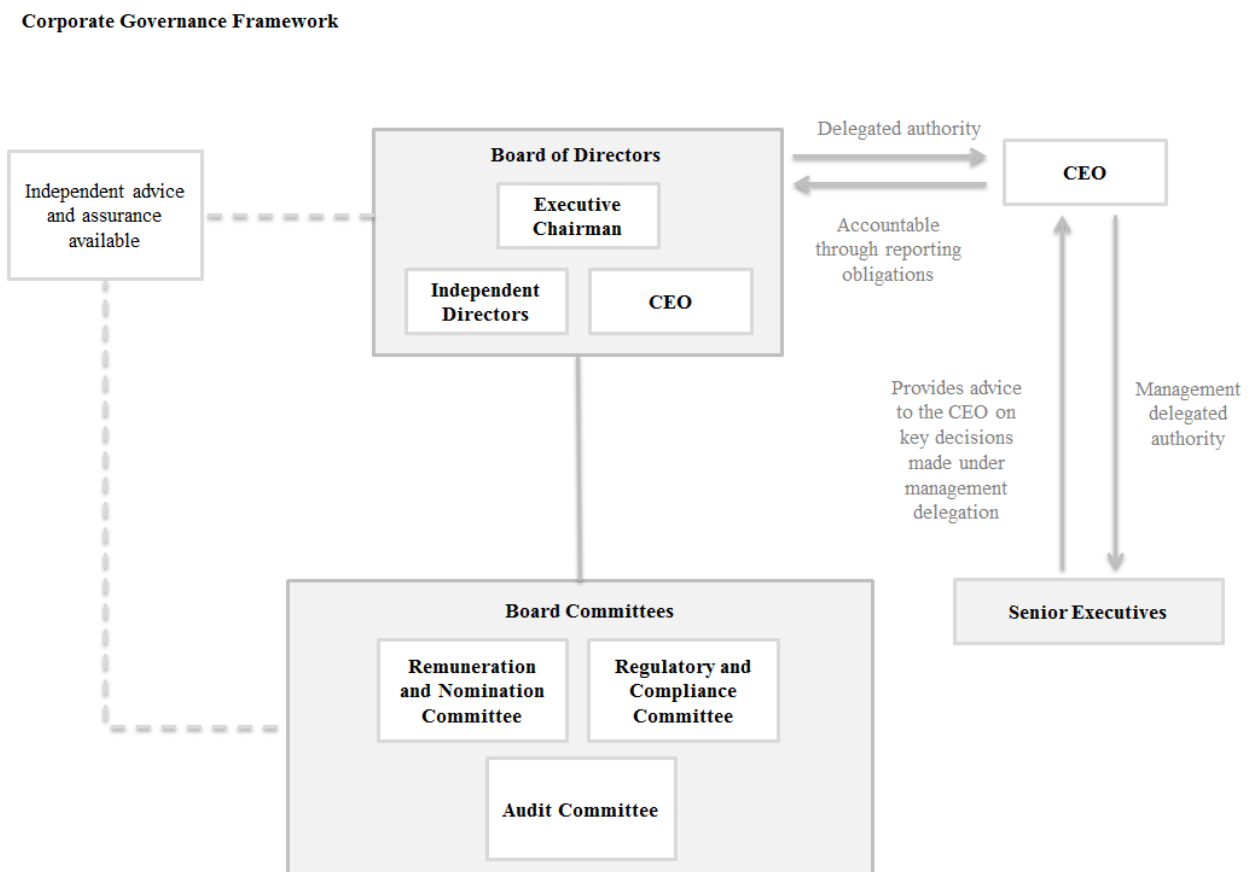

The Company's Board of Directors and management strongly support the principles of good corporate governance to create long-term value for shareholders and maintaining the Company's strong reputation for integrity. This is particularly important given the highly regulated nature of the industry within which the Company operates and is essential for securing new gaming licences and protection of current licences.

Set out below are the Company's corporate governance principles and practices in line with the ASX Corporate Governance Council ("Council") release of "Corporate Governance Principles and Recommendations 3rd edition". Statements to this corporate governance section have been referenced to the applicable ASX Recommendations and compliance is indicated by .

This statement is current as at 30 September 2016, and has been approved by the Board of Directors.

Corporate Governance Framework

An overview of the Company's Corporate Governance Framework is depicted below:

Principle 1

Lay solid foundations for management and oversight

Role of the Board and Management

The Board's primary role is the protection and enhancement of long-term shareholder value. To fulfil this role, the Board is responsible for the overall corporate governance of the Company, including guiding its strategic direction, approving and monitoring capital expenditure, monitoring financial performance, setting remuneration and reviewing the performance of the Chief Executive Officer (CEO). The Board is responsible for ensuring appointments, removals and succession plans for directors and where necessary, seeking shareholder approval. In addition, the Board is responsible for appointing, removing and creating succession policies for the CEO and senior executives. The Board establishes and monitors the achievement of management's goals, ensuring the integrity of internal control and management information systems and approves and monitors financial and other business related reporting.

In his role as Executive Chairman, Mr LH Ainsworth provides input into technical design, strategic guidance and overview of the Company with the responsibility for management of the day to day operations and implementation of the Group's strategy and policy initiatives delegated to the CEO. The CEO then delegates these responsibilities to other senior executives within the limits of specific authorities outlined in the delegations approved by the Board. A copy of the Board Charter detailing the roles and responsibilities of the Board and Management can be found in the Corporate Governance section within the Company's website. The Board Charter also outlines matters that are specifically reserved for the Board and its committees and those delegated to management.

Board Processes

To assist in the execution of its responsibilities, the Board has established three Board Sub-Committees as shown in the Corporate Governance Framework above. Each Committee has a Charter which includes a more detailed description of their duties and responsibilities. These Charters are regularly reviewed and approved by the Board and are available in the Corporate Governance section of the Company's website. The Board has also established a framework for the management of the Company including a system of internal control, a business risk management process and the establishment of appropriate ethical standards.

The Board currently holds monthly scheduled meetings throughout the year and any extraordinary meetings at such other times as may be necessary to address any specific significant matters that may arise.

The agenda for the Board meetings is prepared in conjunction with the Chairperson, CEO and the Chief Financial Officer (CFO)/Company Secretary. Standing items include declaration of interests or conflicts, the CEO report, financial reports and any issues relating to strategic matters, governance and compliance requirements of the Company. Board papers and submissions are circulated in advance. Executives are regularly involved in Board discussions and directors have the opportunity for contact with a wider group of employees and other stakeholders.

During the year under review, the Board met twelve times and the Board members' attendance record is disclosed in the table of directors' meetings within the Annual Report.

Appointment and Re-election of Directors

When appointing new directors, the Board and the Remuneration and Nomination Committee look to ensure that an appropriate balance of skills, knowledge, experience, independence and diversity is maintained. Before a candidate is nominated by the Board, they must provide details of their other commitments and an indication of time involved, and confirm that they will have sufficient time to meet their obligations to the Company. The Company undertakes comprehensive checks including character reference, experience, education, criminal record, and bankruptcy history before it puts forward to shareholders a new candidate for election, as a director. In addition, due to the highly regulated environment that the Company operates, each director has to meet all gaming regulatory approval conditions prior to his or her formal appointment. The gaming regulators require detailed probity and compliance investigations be undertaken on the director candidates and their families, who are required to disclose extensive historical and current personal and financial information.

The Company discloses all material information that is relevant to a decision on whether or not to elect or re-elect a director in the Notice of Meeting provided to shareholders. Director candidates are also invited to address the meeting and provide the details of the relevant qualifications, experiences and skills they bring to the Board.

For each successful appointment of a new director, the director is provided with a written agreement setting out the terms of their appointment.

Company Secretary

The Company Secretary is accountable directly to the Board, through the Chairman, on all matters to do with the proper functioning of the Board. Each director is entitled to access the advice and services of the Company Secretary.

The decision to appoint or remove a Company Secretary is made by the Board in accordance with the Company's Constitution. Details of the Company Secretary are set out in the Directors' Report within the Annual Report.

Board Performance Review

The Chairman of the Board is responsible for evaluating the performance of the Board, its committees and individual directors. The performance of the Board was assessed during the year in accordance with the process described below.

The process for conducting the Board's performance review consists of individual interviews with each director. The review includes an assessment of the individual contribution of each Board member as well as the performance of the Board as a whole. The performance criteria that is taken into account include each director's contribution to setting the direction, strategy and financial objectives of the group and monitoring compliance with regulatory requirements and ethical standards. A written report discussing the results, issues for discussion and recommendations is to be presented to the Board and discussed at a Board meeting. Each of the Board Sub-Committees undertakes a periodic review of their performance in accordance with their Charters. The results of these reviews are then presented and discussed at a Board meeting.

Appointment and Performance of Key Executives

Senior executives are provided with a written service agreement which sets out the terms and conditions of their appointment. Contract details of senior executives which are defined as Key Management Personnel (KMP) are summarised in the Remuneration Report within the Annual Report.

The Remuneration and Nomination Committee reviews the performance of the Company's CEO and senior executives who directly report to the CEO. Their findings are reported to the Board. A performance management review process is undertaken which involves review against previously established goals and objectives set by the Board. The performance of the Company's senior executives has been assessed this year in accordance with this process. Key aspects of the review process are described below.

The CEO Key Performance Indicators (KPIs) are annually determined by the Board based on recommendations from the Remuneration and Nomination Committee. The key aspects included in the KPIs are financial performance measures, strategic initiatives, staff and human relations matters and compliance performance. The Remuneration and Nomination Committee reviews performance against the established KPIs on an ongoing basis, with a formal evaluation being completed at the end of each financial year and its findings are reported to the Board.

The CEO evaluates, at least annually, the performance of the following key executives: CFO/Company Secretary, , General Manager of Research and Development, General Manager of Manufacturing, General Counsel, Group Compliance Manager, General Manager of Business Services, General Manager of Engineering, General Manager of Online and Social Gaming, and Divisional Sales Managers. Both qualitative and quantitative measures are used that vary according to an individual's role. Factors that are taken into consideration when accessing performance include relative contributions to

profit, how business is conducted, people leadership and adherence to the Company’s Code of Conduct and compliance policies. These performance assessments are reviewed by the Remuneration and Nomination Committee and reported to the Board.

Diversity and Inclusion

The Company recognises that a diverse and inclusive workforce is important in attracting and retaining talented employees, inspiring greater innovation, and embracing the Company business objectives. The Company is supportive of the ASX diversity recommendations and will continue to be committed to promote and achieve diversity across the Company. In addition to the Company’s Equal Employment Opportunity/Anti-Discrimination Policy, the Company has established a Diversity Policy which is available in the Corporate Governance section on the Company’s website. The Board will continually develop measureable objectives for key diversity categories in line with the Diversity Policy. The Remuneration and Nomination Committee will review the progress of the objectives annually and will report the outcomes and make recommendations as appropriate to the Board.

The Company aims to demonstrate its commitment to gender diversity by increasing the number of women on the Board, in senior management and Company-wide on a year to year basis. The Company has defined senior management as senior executives reporting directly to the CEO, senior managers and senior specialists across the Group with input into directing operational decision-making within specific departments and for identified geographical regions.

The proportion of women at various levels within the Company at the end of the financial year is shown in the chart below.

Category	30 June 2015	30 June 2016
Board of Directors	Nil	1
Senior Management	10%	13%
Company-wide	27%	27%

During the reporting period, the Company has achieved its measureable objectives for achieving gender diversity in the Board of Directors and Senior Management categories. The female representation in these two categories have increased compared to prior reporting period and the Company remains committed in promoting gender diversity across all categories.

As part of the requirements set by the Workplace Gender Equality Act 2012 (WGEA), the Company has reported against a set of standardised gender equality indicators (GEIs). The GEIs relate to areas that are critical to gender equality are outlined below:

Principle 2

Structure the Board to add value

Each director has the right of access to all Company information and to the Company's executives. Further, subject to informing the Board, a director may seek independent professional advice from a suitably qualified adviser at the Company's expense. A copy of the advice received by the director is to be made available to all other members of the Board.

The Company has a formal process to educate new directors about the nature of the business, current issues, the corporate strategy and the expectations of the Company concerning performance of directors. The 'Corporate Governance' section sets out the key corporate governance policies and other corporate governance materials referred to in this document.

The Company conducts regular briefings including interim and full year results announcements, investor days and attends industry specific tradeshows in order to facilitate effective two-way communication with shareholders and the wider investment community. All discussions with analysts are conducted by the CEO and CFO/Company Secretary and are limited to an explanation of previously published material and general discussion of non-price sensitive information.

The Company commits to ensuring that opportunity is given to shareholders to participate in general meetings. Where a shareholder is not able to attend the general meeting and exercise their right to ask questions about, or make comments on the Company, the Company gives the shareholder the opportunity to provide questions or comments ahead of the meeting. Where appropriate, these questions are answered at the meeting, either by being read out and then responded to at the meeting or by providing a transcript of the question and a written answer at the meeting. Principle 7

Recognise and manage risk

Oversight of the Risk Management System

The Board oversees the establishment, implementation and annual review of the Company's risk management system. Management has established and implemented the risk management system for identifying, assessing, monitoring and managing operational, financial reporting, and compliance risks for the Company. The Board has reviewed the financial reporting risk management and associated compliance and controls and they are found to be operating efficiently and effectively. All risk assessments covered the whole financial year and the period up to the signing of the annual financial report for all material operations in the Company and material associates. There are a number of material business risks that could affect the Company and the achievement of the of the Group's financial performance objectives. Those risks and how they are managed are addressed in the Notes of the Financial Statements within the Annual Report. Although the Company's operations do not have any material exposure to environmental and social sustainability risks, the Company continually monitors its exposure to these risks.

Risk Profile and the Audit Committee

The Audit Committee reports to the Board on the status of risks through integrated risk management processes and programs aimed at ensuring that risks are identified, assessed and appropriately managed.

Each business operational unit is responsible and accountable for implementing and managing the standards required by the risk management system.

The major risks that the Company faces are allocated to individual executives and are reviewed to determine progress and to provide updates as to the individual status and to ensure the identification of any further risks.

Risk Management and Compliance and Control

The Company has implemented a compliance program which complies with the Australian Standard for Compliance Programs AS 3806. This Standard was prepared by the Standards Australia Committee following a request by the Australian Competition and Consumer Commission and details the essential elements of an effective compliance program. The Standard provides principles for the development,

implementation and maintenance of an effective compliance program, whilst emphasising the need for continuous improvement. The use of these principles will enable the Company to identify risks and to develop processes to ensure compliance with relevant laws and regulations, including gaming regulatory and licence obligations.

The Company's quality management system complies with the AS/NZ ISO 9001:2008 standard *Quality Management System-Requirements*, published by the International Organisation for Standardisation (ISO). The re-certification audit was conducted successfully in May 2016 by independent auditors further demonstrating the Company's commitment to continuous improvement. The next annual surveillance audit will be a transition to the ISO 9001:2015 standard and is currently scheduled for April 2017. As a Nevada licence holder, the Company has obligations under its Nevada Gaming Compliance Plan in addition to licence and reporting obligations under its other licences.

The Company continually reviews internal controls and operating procedures, to enable compliance with Gaming Machine National Standards and the Company's Control System Manual. The Company has also conducted staff training regarding anti-money laundering and countering the financing of terrorism to ensure that staff can identify suspicious incidences and understand their obligations to report these events. In addition, the training included risk management controls to mitigate both internal and external risks. Staff were reminded of the Company's Whistleblower Policy and cyber security measures and the need to be vigilant to protect private and confidential data.

To ensure that these standards are maintained, there are a number of internal reporting measures including monthly Compliance Reports from all department managers and monthly Continuous Disclosure Reports from all senior executives. The Regulatory and Compliance Committee receives details from the above reports and reviews the Company's reporting and processes on all these matters.

The Board is responsible for the overall internal control framework, but recognises that no cost effective internal control system will preclude all errors and irregularities. The Board's policy on internal control is continually under review to ensure it keeps pace with internal and external changes. The Board oversees the Company's internal compliance and control systems, including:

Operating unit controls – Operating units confirm compliance with financial controls and procedures, including information systems controls detailed in procedures manuals;

Functional specialty reporting – Key areas subject to regular reporting to the Board include Treasury and Risk Management, Environmental, Legal and Insurance matters; and

Investment appraisal – Guidelines for capital expenditure include annual budgets, detailed appraisal and review procedures, levels of authority and due diligence requirements where businesses are being acquired or divested.

Comprehensive practices have been established to ensure:

- capital expenditure and revenue commitments above a certain size, obtain prior Board approval;
- workplace health and safety standards and management systems are monitored and reviewed to achieve high standards of performance and compliance with regulations;
- business transactions are properly authorised and executed;
- the quality and integrity of personnel is maintained (see below);
- financial reporting accuracy and compliance with the financial reporting regulatory framework (see below); and
- environmental regulation compliance (see below).

Quality and integrity of personnel

Written confirmation of compliance with policies of the Company is obtained from all operating units. Formal appraisals are conducted at least annually for all employees. Training and development and appropriate remuneration and incentives with regular performance reviews create an environment of co-operation and constructive dialogue with employees and senior management. A formal succession plan has

been established to ensure competent and knowledgeable employees fill senior positions, as and when retirements or resignations occur.

Financial reporting

The CEO and the CFO/Company Secretary have declared, in writing to the Board, that the Company's financial reports are founded on a sound system of risk management and internal compliance and control. Monthly actual results are reported against budgets approved by the directors and revised forecasts for the year are prepared regularly.

Environmental regulation

The Company's operations are not subject to significant environmental regulations under either Commonwealth or State legislation. The Board believes that the Company has adequate systems in place for the management of its environmental requirements and is not aware of any breaches of those environmental requirements as they apply to the Company.

Assessment of Effectiveness of Risk Management

Internal audit

To further assist the Board in ensuring compliance with these internal controls and risk management programs, the Company allocated the responsibilities of the Internal Audit function to a key employee within the Company's compliance department. This role is to oversee and regularly review the effectiveness of the abovementioned compliance and control systems and conduct regular audits against the International and Australian Standards as well as against all operating policies and procedures. The Audit Committee is responsible for approving the internal audit plan to be undertaken during the year and for the scope of the work to be performed.

Mr GJ Campbell (Independent Non-Executive Director)

The Remuneration and Nomination Committee has a documented Charter which is regularly reviewed and approved by the Board. A majority of members are independent non-executive directors and the Chairman of the Committee is not the Chairman of the Board.

The CEO and Human Resources/Payroll Manager are invited to attend the Remuneration and Nomination Committee meetings, as required, to discuss senior executives' performance and remuneration packages. The CEO and CFO/Company Secretary are not involved in matters pertaining to their own remuneration. During the year under review, the Committee met three times and the directors' attendance record is disclosed in the table of directors' meetings within the Annual Report.

The main responsibilities of the Remuneration and Nomination Committee are to:

- review the composition of the Board and make evaluations and recommendations thereon;
- identify and evaluate potential candidates as non-executive directors and report findings to the Board;
- recommend the selection, appointment, induction process and succession planning process for the CEO, the CFO/Company Secretary and other senior executives;
- recommend to the Board ways in which the skills, experience and expertise levels of existing directors and senior executives can be enhanced and developed;
- conduct an annual review of performance of the CEO, the CFO/Company Secretary and the senior executives reporting directly to them, and report findings to the Board;
- review and make recommendations to the Board on remuneration packages and incentive policies applicable to the CEO, CFO/Company Secretary, senior executives and directors themselves;
- establish, review and monitor key diversity objectives outlined in the Company's Diversity Policy and an annual review of measureable objectives is to be undertaken with outcomes and recommendations reported to the Board as appropriate; and
- perform, at least annually, a performance evaluation of the Committee members to ensure delivery on its Charter and continually enhance the Committee's contribution to the Board.

Further details of the Remuneration and Nomination Committee's responsibilities are outlined in its Charter, which is available in the Corporate Governance section on the Company's website. The policy and procedure for appointment of directors also forms a part of the Committee's Charter.
