

Corporate Governance Statement as at 30 June 2022

The Company’s Approach to Corporate Governance

The Company’s Board of Directors and management strongly support the principles of good corporate governance to create long-term value for shareholders and maintaining the Company’s strong reputation for integrity. This is particularly important given the highly regulated nature of the industry within which the Company operates and is essential for securing new gaming licences and protection of current licences.

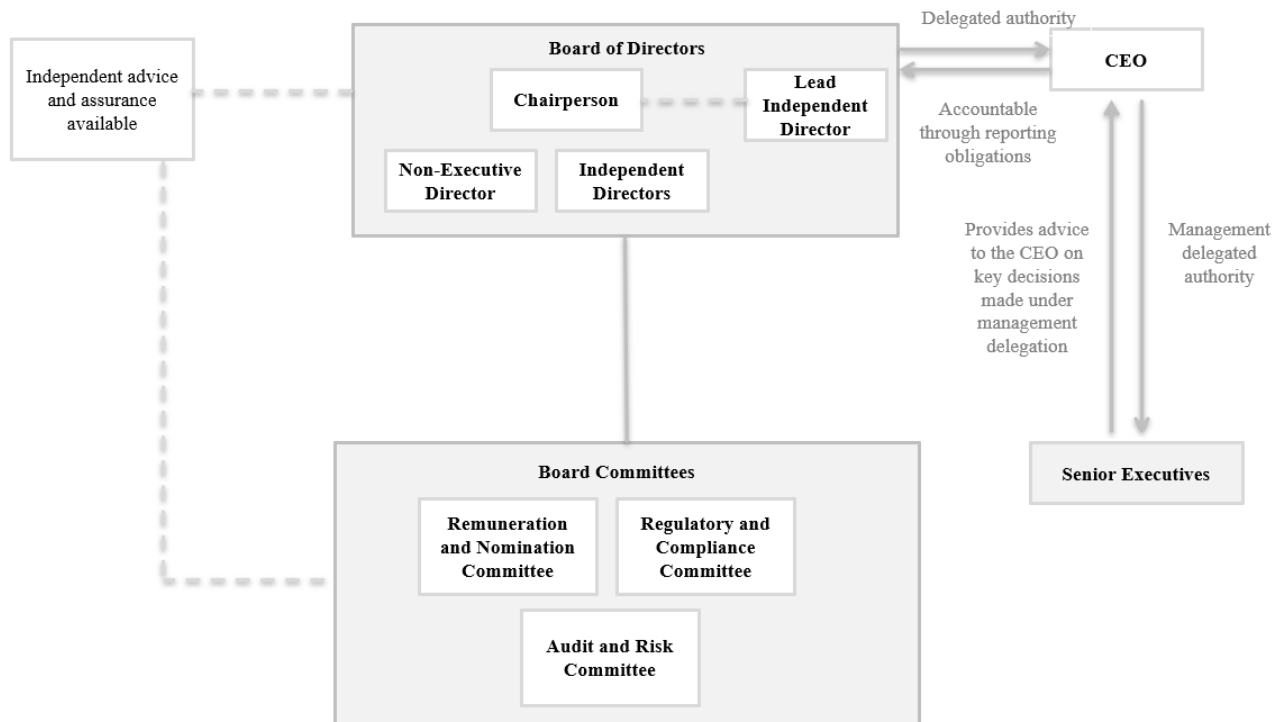

Set out below are the Company’s corporate governance principles and practices in line with the ASX Corporate Governance Council (“Council”) release of “Corporate Governance Principles and Recommendations 4th edition”. Statements to this corporate governance section have been referenced to the applicable ASX Recommendations and compliance is indicated by .

This statement is current as at 26 October 2022 and has been approved by the Board of Directors.

Corporate Governance Framework

An overview of the Company's Corporate Governance Framework is depicted below:

Corporate Governance Framework

This corporate governance framework depicted above was current for the full financial year ended 30 June 2022. Subsequent to the reporting period and from 11 July 2022, the lead independent director role was no longer deemed necessary as the Chairperson was determined and classified as an independent non-executive director.

Principle 1

Lay solid foundations for management and oversight

Role of the Board and Management

The Board's primary role is the protection and enhancement of long-term shareholder value. To fulfil this role, the Board is responsible for the overall corporate governance of the Company, including guiding its strategic direction, approving and monitoring capital expenditure, monitoring financial performance, setting remuneration and reviewing the performance of the Chief Executive Officer (CEO). The Board is responsible for ensuring appointments, removals and succession plans for directors and where necessary, seeking shareholder approval. In addition, the Board is responsible for appointing, removing and creating succession policies for the CEO and senior executives. The Board establishes and monitors the achievement of management's goals, ensuring the integrity of internal control and management information systems and approves and monitors financial and other business-related reporting.

The Board provides input into technical design, strategic guidance and overview of the Company with the responsibility for management of the day-to-day operations and implementation of the Group's strategy and policy initiatives delegated to the CEO. The CEO then delegates these responsibilities to other senior executives within the limits of specific authorities outlined in the delegations approved by the Board. A copy of the Board Charter detailing the roles and responsibilities of the Board and Management can be found in the Corporate Governance section within the Company's website. The Board Charter also outlines matters that are specifically reserved for the Board and its committees and those delegated to management.

Board Processes

To assist in the execution of its responsibilities, the Board has established three Board Sub-Committees as shown in the Corporate Governance Framework above. Each Committee has a Charter which includes a more detailed description of their duties and responsibilities. These Charters are regularly reviewed and approved by the Board and are available in the Corporate Governance section of the Company's website. The Board has also established a framework for the management of the Company including a system of internal control, a business risk management process and the establishment of appropriate ethical standards.

The Board currently holds scheduled meetings throughout the year and any extraordinary meetings at such other times as may be necessary to address any specific significant matters that may arise.

The agenda for the Board meetings is prepared in conjunction with the Chairperson, CEO and the Chief Financial Officer (CFO)/Company Secretary. Standing items include declaration of interests or conflicts, the CEO report, financial reports and any issues relating to strategic matters, governance and compliance requirements of the Company. Board papers and submissions are circulated in advance. Executives are regularly involved in Board discussions and directors have the opportunity for contact with a wider group of employees and other stakeholders.

During the year under review, the Board met eleven times and the Board members' attendance record is disclosed in the table of directors' meetings within the Annual Report.

Appointment and Re-election of Directors

When appointing new directors, the Board and the Remuneration and Nomination Committee look to ensure that an appropriate balance of skills, knowledge, experience, independence and diversity is maintained. Before a candidate is nominated by the Board, they must provide details of their other commitments and an indication of time involved and confirm that they will have sufficient time to meet their obligations to the Company. The Company undertakes comprehensive checks including character reference, experience, education, criminal record, and bankruptcy history before it puts forward to shareholders a new candidate for election, as a director. In addition, due to the highly regulated environment that the Company operates, each director has to meet all gaming regulatory approval conditions prior to his or her formal appointment. The gaming regulators require detailed probity and compliance investigations be undertaken on the director candidates and their families, who are required to disclose extensive historical and current personal and financial information.

The Company discloses all material information that is relevant to a decision on whether or not to elect or re-elect a director in the Notice of Meeting provided to shareholders. Director candidates are also invited to address the meeting and provide the details of the relevant qualifications, experiences and skills they bring to the Board.

For each successful appointment of a new director, the director is provided with a written agreement setting out the terms of their appointment.

Company Secretary

The Company Secretary is accountable directly to the Board, through the Chairperson, on all matters to do with the proper functioning of the Board. Each director is entitled to access the advice and services of the Company Secretary.

The decision to appoint or remove a Company Secretary is made by the Board in accordance with the Company's Constitution. Details of the Company Secretary are set out in the Directors' Report within the Annual Report.

Board Performance Review

The Chairperson of the Board is responsible for evaluating the performance of the Board, its committees and individual directors and this review process was undertaken in line with the process as described below.

The process for conducting the Board's performance review consists of individual interviews with each director. The review includes an assessment of the individual contribution of each Board member as well as the performance of the Board as a whole. The performance criteria that is taken into account include each director's contribution to setting the direction, strategy and financial objectives of the group and monitoring compliance with regulatory requirements and ethical standards. A written report discussing the results, issues for discussion and recommendations is presented to the Board and discussed at a Board meeting. Each of the Board Sub-Committees undertakes a periodic review of their performance in accordance with their Charters. The results of these reviews are then presented and discussed at a Board meeting.

Appointment and Performance of Key Executives

Senior executives are provided with a written service agreement, which sets out the terms and conditions of their appointment. Contract details of senior executives which are defined as Key Management Personnel (KMP) are summarised in the Remuneration Report within the Annual Report.

The Chairperson is responsible for reviewing and evaluating the performance of the CEO and reports to the Board the outcome of the evaluation. A performance management review process is undertaken which involves review against previously established goals and objectives set by the Board. Key aspects of the review process are described below.

The CEO Key Performance Indicators (KPIs) are annually determined by the Board based on input from the Remuneration and Nomination Committee. The key aspects included in the KPIs are financial performance measures, strategic initiatives, staff and human relations matters and compliance performance. The Chairperson reviews the CEO's performance against the established KPIs on an ongoing basis, with a formal evaluation being completed at the end of each financial year and his findings are reported to the Board. The FY2022 performance review for the CEO was undertaken throughout the year in accordance with this process

The CEO evaluates, at least annually, the performance of senior executives that directly report to him. Both qualitative and quantitative measures are used that vary according to an individual's role. Factors that are taken into consideration when accessing performance include relative contributions to profit, how business is conducted, people leadership and adherence to the Company's Code of Conduct and compliance policies. These performance assessments are provided to the Remuneration and Nomination Committee and reported to the Board.

During the year, the CEO undertook an evaluation of the senior executives' performance and reported to the Remuneration and Nomination committee this assessment from these performance reviews. To ensure that the CEO and senior executives continually deliver on their roles and responsibilities in line with the Group's strategic goals and values, their performances were evaluated throughout the year.

Diversity and Inclusion

The Company recognises that a diverse and inclusive workforce is important in attracting and retaining talented employees, inspiring greater innovation, and embracing the Company business objectives. The Company is supportive of the ASX diversity recommendations and will continue to be committed to promote and achieve diversity across the Company. In addition to the Company's Equal Employment Opportunity/Anti-Discrimination Policy, the Company has established a Diversity Policy which is available in the Corporate Governance section on the Company's website. The Board will continually develop measurable objectives for key diversity categories in line with the Diversity Policy. The Remuneration and Nomination Committee will review the progress of the objectives annually and will report the outcomes and make recommendations as appropriate to the Board.

The Company aims to demonstrate its commitment to gender diversity by increasing the number of women on the Board, in senior management and Company-wide on a year to year basis. The Company has defined senior management as senior executives reporting directly to the CEO, senior managers and senior specialists across the Group with input into directing operational decision-making within specific departments and for identified geographical regions.

The proportion of women at various levels within the Company at the end of the financial year is shown in the chart below.

| Category | 30 June 2022 set measurable objectives for achieving gender diversity | 30 June 2022 outcome |
|--------------------|---|-----------------------|
| Board of Directors | 1 out of 5 directors | 0 out of 5 directors* |
| Senior Management | 20% | 21% |
| Company-wide | 30% | 27% |

* Subsequent to 30 June 2022, the Company appointed Ms Heather Scheibenstock as an independent, non-executive director effective 11 July 2022. This appointment achieved the measurable diversity outcome for the Board of Directors.

During the reporting period, the Company achieved its measurable objectives for gender diversity at Senior Management level, however, did not achieve the established measurable objective for gender diversity at the Company-wide level. The Company continues to and remain committed in promoting gender diversity across all categories. Given the change in reporting period to a calendar basis effective 1 January 2023, the measurable objectives for achieving gender diversity have been maintained for the 6 month period 31 December 2022 and these will be reassessed for the ensuing reporting periods.

As part of the requirements set by the Workplace Gender Equality Act 2012 (WGEA), the Company has reported against a set of standardised gender equality indicators (GEIs). The GEIs relate to areas that are critical to gender equality are outlined below:

- GEI 1- Gender composition of the workforce;
- GEI 2 - Gender composition of governing bodies;
- GEI 3 - Equal remuneration between women and men;
- GEI 4 - Flexible working arrangement for employees and working arrangements supporting employees with family or caring responsibilities;
- GEI 5 - Consultation with employees on issues concerning gender equality in the workplace; and
- GEI 6 - Sex-based harassment and discrimination.

A copy of the 2022 report provided to the Workplace Gender Equality Agency under WGEA can be viewed at: <http://www.agtslots.com/investor/corporate-governance>

Principle 2

Structure the Board to be effective and add value

Composition of the Board

The names and details including the experience, special responsibilities, and other directorships held and term of office of each member of the Board can be found in the Directors' Report within the Annual Report. It identifies and evaluates suitability qualified candidates as directors and makes recommendations to the Board for consideration.

Directors skills and experience

The composition of the Board was evaluated and reviewed to ensure it provided a broad range of skills, personal qualities, expertise, ability to exercise independent judgment and diversity required to discharge its responsibilities. The Board considers that individually and collectively, the directors have an appropriate mix of skills and experience to assist the Company to achieve its objectives and continual development strategies.

An objective of the Company is to ensure that the majority of the Board should comprise independent, non-executive directors with no other significant business or other links to the Company. An independent director is a director who is not a member of the management (i.e. a non-executive director) team and who:

- holds less than five percent of the voting shares of the Company and is not an officer of the Company, or otherwise associated, directly or indirectly, with a shareholder of more than five percent of the voting shares of the Company;
- has not within the last three years been employed in an executive capacity by the Company or another group member, or has been a director after ceasing to hold any such employment;
- within the last three years has not been a principal or employee of a material* professional adviser or a material* consultant to the Company or another group member;
- within the last three years has not been a material* supplier or customer of the Company or another group member, or an officer of the Company or otherwise associated, directly or indirectly, with a material* supplier or customer;
- has no material* contractual relationship with the Company or another group member other than as a director of the Company;
- has no close family ties with any person who falls within any of the categories described above;
- has not served on the Board for a period which could, or could reasonably be perceived to, materially interfere with the director's ability to act in the best interests of the Company; and
- is free from any interest and any business or other relationship which could, or could reasonably be perceived to, materially interfere with the director's ability to act in the best interests of the Company.

The Board considers, "material", in this context to be where any director-related business relationship has represented or is likely in future to represent the lesser of at least 10% of the relevant segment's or the director-related business's revenue. The Board has considered the nature of the relevant industries' competition and the size and nature of each director-related business relationship, in arriving at this threshold. Based on the criteria outlined above, the Board was of the view that there were no factors affecting the independent status of any non-executive directors throughout the financial year and as at the date of this statement.

From 1 April 2021 to 21 December 2021 following the resignation of Mr Michael Yates, the Board did not comprise of a majority of independent non-executive directors. Subsequent to 30 June 2022, Mr Daniel Gladstone was classified as an independent non-executive director and Ms Heather Scheibenstock was appointed as an independent non-executive director, both effective from 11 July 2022. From this date, the Board comprised of all independent non-executive directors. Throughout the year, the roles of the Chairperson and CEO were not being exercised by the same individual.

Each director has the right of access to all Company information and to the Company's executives. Further, subject to informing the Board, a director may seek independent professional advice from a suitably qualified adviser at the Company's expense. A copy of the advice received by the director is to be made available to all other members of the Board.

The Company has a formal process to educate new directors about the nature of the business, current issues, the corporate strategy and the expectations of the Company concerning performance of directors. Directors also have the opportunity to meet with management to gain a better understanding of business operations. Directors are able to access continuing education opportunities to update and enhance their skills and knowledge to perform their role as directors effectively.

Principle 7

Recognise and manage risk

Oversight of the Risk Management Framework

The Company encounters a range of risks that may threaten its ability to meet its objectives. To address these risks the Company has in place a Risk Management Procedure that details the objectives and actions required to deliver a best practice approach to integrating risk management into the company's

leadership, business planning, staff culture and day-to-day operations. Key responsibility for ensuring the company adheres to its Risk Management Procedure rests with the Board and the company Audit and Risk Committee. Management has established and implemented the risk management framework for identifying, assessing, monitoring and managing operational, financial reporting, and compliance risks for the Company.

The Audit and Risk Committee reviews the risks identified and assessed by management. The key risks identified during this process of review are provided to the Board of Directors. All risk assessments covered the whole financial year and the period up to the signing of the annual financial report for all material operations in the Company and material associates. The Board of Directors and Company reviewed its risk management policies and procedures to ensure they support the objective of ongoing compliance with all applicable laws, and these were found to be operating efficiently and effectively. This on-going review highlighted those policies and procedures in higher risk jurisdictions required greater oversight and once completed, incorporated and implemented within the risk management framework. There are a number of material business risks (namely relating to credit, liquidity and market risks) that could affect the Company and the achievement of the Group's financial performance objectives. Those risks and how they are managed are addressed in the Notes of the Financial Statements within the Annual Report. Although the Company's operations do not have any material exposure to environmental and social sustainability risks, the Company continually monitors its exposure to these risks.

Risk Profile and the Audit & Risk Committee

The Audit & Risk Committee reports to the Board on the status of risks through integrated risk management processes and programs aimed at ensuring that risks are identified, assessed and appropriately managed.

Each business operational unit is responsible and accountable for implementing and managing the standards required by the risk management system.

The major risks that the Company faces are allocated to individual executives and are reviewed to determine progress and to provide updates as to the individual status and to ensure the identification of any further risks.

Risk Management and Compliance and Control

The Company has implemented a compliance program, which complies with the Australian Standard for Compliance Programs AS 3806. This Standard was prepared by the Standards Australia Committee following a request by the Australian Competition and Consumer Commission and details the essential elements of an effective compliance program. The Standard provides principles for the development, implementation and maintenance of an effective compliance program, whilst emphasising the need for continuous improvement. The use of these principles will enable the Company to identify risks and to develop processes to ensure compliance with relevant laws and regulations, including gaming regulatory and licence obligations.

The Company's quality management system complies with the AS/NZ ISO 9001:2015 standard *Quality Management System-Requirements*, published by the International Organisation for Standardisation (ISO). The latest surveillance audit was conducted and completed successfully in May 2022 by independent auditors further demonstrating the Company's commitment to continuous improvement. The next annual surveillance audit is currently scheduled for May 2023. As a Nevada licence holder, the Company has obligations under its Nevada Gaming Compliance Plan in addition to licence and reporting obligations under its other licences.

The Company continually reviews its internal controls and operating procedures, to enable compliance with Gaming Machine National Standards and the Company's Control System Manual.

As part of the induction program, all new employees receive a copy of the Company's Code of Conduct which informs staff of the Company's compliance related policies including the required standards of behavior expected of all staff in the workplace. This information includes details of the Company's Equal Employment Opportunity and Anti-Discrimination Policy, Anti Sexual Harassment Policy, Anti-bullying Policy, Securities Trading Policy, Information Technology Policies and its Anti Bribery and Corruption

Policy. The Code of Conduct also contains details of how staff can access and report on an identified or anonymous basis, details of any breach of the law or company policy by any person via the Company's Whistleblower Reporting Portal. On an annual basis, all staff are required to declare any conflicts of interest with a customer, supplier or competitor and whether the staff member has even been investigated by a regulatory authority (that the Company is not aware of). All of these measures are part of the Company's risk management controls to mitigate both internal and external risks.

To ensure that these standards are maintained, there are a number of internal reporting measures including the preparation of monthly Compliance Reports from all department managers, reports of all incidents reported through the Company's Whistleblower Reporting Portal and monthly Continuous Disclosure Reports from all senior executives. The Regulatory and Compliance Committee receives details of the above reports and reviews the Company's reporting and processes on all these matters. The information received by the Regulatory and Compliance Committee is then made available for review by the Company's auditors and its major gaming regulatory bodies, including the Nevada Gaming Control Board.

The Board is responsible for the overall internal control framework but recognises that no cost-effective internal control system will preclude all errors and irregularities. The Board's policy on internal control is continually under review to ensure it keeps pace with internal and external changes. The Board oversees the Company's internal compliance and control systems, including:

Operating unit controls – Operating units confirm compliance with financial controls and procedures, including information systems controls detailed in procedures manuals;

Functional specialty reporting – Key areas subject to regular reporting to the Board include Treasury and Risk Management, Environmental, Legal and Insurance matters; and

A formal succession plan has been established to ensure competent and knowledgeable employees fill senior positions, as and when retirements or resignations occur.

The Directors are not aware of any breaches of any environmental legislation or of any significant environmental incidents during the financial year.

Social Risks

The Company's initiatives in response to the risk of Modern Slavery in its supply chain are detailed in the Company's Modern Slavery Statement, published on the Company's website.

- its ongoing commitment to maintaining a strong corporate culture of transparency and compliance supported by a dedicated and professionally trained regulatory compliance function overseen by the Company's Regulatory Compliance Committee.

Assessment of Effectiveness of Risk Management

Internal audit

To further assist the Board in ensuring compliance with these internal controls and risk management programs, the Company allocated the responsibilities of the Internal Audit function to a key employee within the Company's compliance department. This role is to regularly review the effectiveness of the abovementioned compliance and control systems and conduct regular audits against the International and Australian Standards as well as against all operating policies and procedures. The Audit Committee is responsible for approving the internal audit plan to be undertaken during the year and for the scope of the work to be performed.
